Statement by District Attorney Pat Lykos

I met with the ministers today to discuss the law and the criminal justice process.

We had an open and candid dialogue. The ministers shared their concerns, and I listened. I expressed my thoughts as well. Although we disagreed on much, we agreed to keep the door open for additional discussions.

People must have trust and confidence in the legal system. It is vital that all the people of Harris County know that the mission of the District Attorney's Office is to seek justice.
